THE NATIONAL CHAMPIONSHIP FIELD TRIAL

The trial, the fourteenth annual National Championship for English Springer Spaniels, is the twelfth to be run by the National English Springer Spaniel Field Trial Association which was organized in 1947 with the approval of the American Kennel Club and the English Springer Spaniel Field Trial Association, "parent club" of the breed and originator of Spaniel Field Trials in the U.S.A.

The purpose of the trial, which is open to all English Springer Spaniels placing first, second, third or fourth in open-all-age stakes at licensed or AKC member club field trials during the calendar year is to determine the outstanding Springer of the year. To accomplish this, the trial is run under customary field trial procedures but is spread over more series to reduce the element of luck as much as possible. No "trick" or unusual tests will be allowed in the minimum of five land and two water series to be run, and conditions will approximate those of a rough day's shooting adjoining water. Dogs must complete all series to be eligible for a place or award.

The following clubs are members of the National English Springer Spaniel Field Trial Association and are sponsoring this trial:

**Arrowhead English Springer Spaniel Club
Cocker Spaniel Field Trial Club of America
Cincinnati English Springer Spaniel Field Trial Club

A SHORT HISTORY of the ENGLISH SPRINGER SPANIEL NATIONAL FIELD TRIAL

By C. S. Goodall

The first National Field Trial for English Springer Spaniels was held in mid-December 1947 and was the direct result of several years of concentrated effort by a small group of sportsmen imbued with a desire to further the interest of the breed. Much correspondence now molding in dusty file cabinets provided a factual and, in part, amusing chronology of events leading up to the acceptance of the idea to establish an annual National field trial, for the breed. Many of the objections and dire predictions forecast by those in opposition to the idea seem pointless now when viewed in retrospect. As a means to an end and as an end in itself the National trial has proven to be an overwhelming success and has become a permanent fixture on the agenda of those who follow and love fine sport.

The first National Trial was conducted by a field trial committee acting under authority delegated to the English Springer Spaniel Field Trial Association by the American Kennel Club. The basic procedures were established after long and careful study by a committee consisting of Henry L. Ferguson, Robert C. Bishop, Harry L. Caesar, Charles S. Goodall, Claude Jasper, William R. Kirkland, and the late Dr. Charles G. Sabin. This committee appointed William R. Kirkland and the late Leonard Leader as judges and Charles S. Goodall as Field Trial Chairman. The soundness of the procedures and regulations adopted by the careful action of the National Committee for the conduct of the first trial are attested to by the fact that they remain virtually intact since their adoption in 1947.

The basic and primary function of the National Field Trial is to select a National Champion English Springer Spaniel. The six great Springers that have attained to the title in the past provide overwhelming evidence that this objective has been accomplished. One, however, should not lose sight of the importance of several by-products of the event and their wholesome influence on the breed and sport. The interchange of ideas on all subjects pertaining to fine sporting dogs has enhanced the knowledge of all so engaged, and has contributed to the development of a warm feeling of mutual admiration and respect among sportsmen from all sections of the country.

The rare opportunity for observing the inspired handling of superbly trained spaniels with 500 years of hunting heritage behind them has been invaluable to trainers and breeders interested in improving and perfecting training techniques and in producing better Springers. Likewise the experience of observing the fine sportsmanship exhibited by most owners and contestants in victory and defeat has created a feeling of admiration that has resulted in the growth of the highest sporting standards by the overwhelming majority of those in attendance.

It can be said without fear of contradiction that the benefits accruing

to the sport have been manifold and that the National serves as an appropriate and grand climax to the autumn field trial and shooting season for all real sportsmen.

As a tribute and mark of distinction to those fine gun dogs which have won or placed in past trials, to their handlers and owners, and to those serious sportsmen who have willingly accepted the responsibility of performing the many thankless tasks so necessary to the success of any organization, the officers and field trial committee are pleased to imprint their names below.

Standard Procedure for Spaniel Field Trials

1. The purpose of a Spaniel Field Trial is to demonstrate the performance of a perfectly trained Spaniel in the field. The performance of a Spaniel in Field Trials should not differ from that in any ordinary day's shooting, except that in the trials a dog should do his work in a more nearly perfect way.

2. The function of a hunting Spaniel is to walk at heel (or on a leash) until bidden to seek game. When so ordered, he should seek game in a brisk, quiet manner thoroughly quartering the designated cover within gunshot in the line of quest without unnecessarily covering the ground twice. When game is flushed, dogs should drop or "hup" to flush or command and, if game is shot, should retrieve at command only, but not until the Judge has instructed the handler. Dogs should retrieve quickly and briskly when ordered to do so and deliver tenderly to hand. They should then drop or "hup" until given further orders. Spaniels which bark and give tongue while questing are objectionable and should be severely penalized.

3. If a dog, following the line of a bird or rabbit, is getting too far out he should be called off the line and later he should again be cast back on it. A dog which causes his handler and gun to run after him, while line running, is out of control. Handlers may control their dogs by hand, voice, or whistle, but only in a quiet manner that would be used in the field. Any loud shouting or whistling is evidence that the dog is hard to handle, and, in addition, is disturbing to the game.

4. A dog should work to his handler and gun at all times. A dog which marks the fall of a bird, uses the wind, follows a strong runner which has been wounded and will take direction from his handler is of great value.

5. When the Judge gives a line to a handler and dog to follow, this must be followed and the dog not allowed to interfere with the other contestants running parallel to him.

6. The Judges must judge their dogs for game-finding ability, steadiness, and retrieving. In game finding the dog should cover all his ground on the beat, leaving no game in his territory and showing courage in facing cover. Dogs must drop to wing and shot and obey all commands. When ordered to retrieve they should do this tenderly and with speed. No trials for Spaniels can possibly be run without retrieving as that is one of the main purposes for which a Spaniel is used.

7. In judging a Spaniel's work Judges should give attention to the following points, taking them as a whole throughout the entire performance, rather than giving too much credit to a flashy bit of work. Control at all times, and under all conditions.

Scenting ability and use of wind.

Manner of covering ground and briskness of questing.

Perseverence and courage in facing cover.

Steadiness to flush, shot and command.

Aptitude in marking fall of game, and ability to find it.

Ability and willingness to take hand signals.

Promptness and style of retrieve and delivery.

Proof of tender mouth.

Where facilities exist and Water Tests are held in connection with a stake the manner and quality of the performance therein should be given consideration by the Judges in making their awards. Such tests should not exceed in their requirements the conditions met in an ordinary day's rough shoot adjoining water.

Land work is the primary function of a Spaniel, but where a Water Test is given, any dog that does not complete the Water Test shall not be entitled to any award.

8. The Guns should shoot their game in a sportsmanlike manner, as they would in a day's shoot. The proper functioning of the Official Guns is of the utmost importance. The Guns are supposed to represent the handler up to the time the game is shot, although not interfering in any manner with his work or that of the down brace. They are supposed,

if possible, unless otherwise directed to kill cleanly and consistently, the game flushed by the Spaniels at a point most advantageous to a fair trial of their ability, with due regard to the dogs, handlers, Judges, gallery and other contingencies.

9. Care should be taken not to shoot so that the game falls too close to the dog. If this is done it does not afford a chance for the dog to show any good retrieving ability and often results in a bird being destroyed. The Guns should stand perfectly quiet after the shot, for otherwise they may interfere with the dog and handler. When a dog makes a retrieve no other birds or game should be shot unless ordered by the Judge for special reasons. The Gun must also keep himself in the correct position to the handler and others.

10. It has been repeatedly proven that the most efficient gun and load for this work, in all fairness to the dogs, handlers and those responsible for the trial, is a well-choaked twelve gauge double gun, and a load of not less than three drams of smokeless powder, and one and one-eighth ounces of No. 5 or No. 6 chilled shot.

11. All Field Trial giving clubs should clearly recognize that Open All-Age stakes are of the first importance and that all other stakes are of relatively lesser importance and that an entire day should be reserved for the running of an Open All-Age stake unless there is a very small entry.

Representative pieces of one of the outstanding patterns made for Walter H. Willson of Chicago and London, hand-forged, of splendid weight, and reflecting the most faithful reproduction of original pieces of the 1700-1740 period. The superb quality of this silver is made possible only by meticulous handicraft of silversmiths who have never deviated from the highest standards. Forks may be made in either three or four tines and various types of pistol handled knives are available.

Here are America's Most Trusted Dog Foods!

I like 'em because
they taste the best . . .
and they're best for me!

Largest selling dog food in the nation. Packed with lean red meat . . . steaks, chops and roasts, of U.S. Gov't Inspected Horse Meat, plus other valuable nutrients.

Wholesome, balanced nutrition for top condition!

New! Meat red. *Real meat meal* temptingly blended with all the nutrients dogs are known to need gives it meat flavor and meat aroma.

The *meat* supplement. Cooked, ground and ready to mix with other foods. Adds variety. Sparks appetites. 95% pure beef and meat by-products inspected and certified by the U.S. Gov't.

Daily diet at America's top kennels. Balanced, high protein dinner that's completely nourishing. Less waste. Official food at more American Kennel Club shows than all other dog foods combined.

The kindest reward you can give your dog. Not sweet. Low in fat. Nutritionally right . . . with *all* the proteins, vitamins and minerals dogs are known to need.
