*They can't
Sue your
Dog, But---*

Even the friendliest and well-trained dog can get his owner into a peck of trouble.

- the good-natured jump that knocks a child to the sidewalk.
- the powerful lunge that upsets an elderly pedestrian.
- the chewed-up draperies on the drying line.

You can't hold even the best natured dog responsible for these injuries or damages. But you, as the owner, can be held legally liable and have a serious judgment rendered against you.

That's why dog owners need

He's eager for **Dash-**
It's fortified with LIVER!

**See the difference Dash
 makes in looks, appetite,
 disposition!**

Watch for brighter eyes, glossier coat, steadier nerves when you feed your dog Dash. For Dash is a *complete* food for dogs—unsurpassed by any dog food today in its fine quality ingredients. Moreover, Dash is fortified with liver—richest of all meats in quality proteins, minerals and vitamins dogs need for robust health! Its nutrition has been kennel-tested on generations of dogs by Armour scientists! Remember—there's only one Dash—it's fortified with liver! Get Dash today!

95 OUT OF 100 DOGS GO FOR DASH!

Impartial feeding tests in homes and kennels prove 95 out of 100 dogs take to Dash eagerly—right from the start!

THE NATIONAL CHAMPIONSHIP FIELD TRIAL

This trial, the third annual National Championship for English Springer Spaniels, is the second to be run by the National English Springer Spaniel Field Trial Association which was organized in 1947 with the approval of the American Kennel Club and the English Springer Spaniel Field Trial Association, "parent club" of the breed and originator of Spaniel Field Trials in the U.S.A. . .

The purpose of the trial, which is open to all Springer Spaniels placing first, second or third in open all-age stakes at licensed or AKC member club field trials during the calendar year, is to determine the outstanding Springer of the year. To accomplish this, the trial is run under customary field trial procedures but is spread over more series in order to reduce the element of luck as much as possible. No "trick" or unusual tests will be allowed in the minimum of five land and two water series to be run, and conditions will approximate those of a rough day's shooting adjoining water. Dogs must complete all series to be eligible for a place or award.

The following clubs are charter members of the National Springer Spaniel Field Trial Association and are sponsoring this trial:

**Cocker Spaniel F. T. Club of America
Connecticut Spaniel F. T. Association
English Springer Spaniel F. T. Association
English Springer Spaniel Club of Central States
English Springer Spaniel F. T. Club of Illinois
English Springer Spaniel Club of Michigan
English Springer Spaniel Club of Southern California
West Allis Training Kennel Club
Nebraska Dog and Hunt Club
Northwest English Springer Spaniel Club, Inc.
Ravenna English Springer Spaniel Club
Sportsmen's Spaniel Club of Calumet
Valley Forge F. T. Association
Wisconsin Amateur F. T. Association
Northern California F. T. Club
Bath County F. T. Club**

ONE PEN THAT'S
REALLY
DIFFERENT!

Leak-proof!
Smudge-proof!
Clog-proof!
Skip-proof!

HERE'S A PEN that is *guaranteed* not to leak or smudge. Its "Jewel" Point, as precision built as a jewel in a fine watch, fairly glides as it writes—no clogging or skipping. New type ink fountain makes for instant refilling and contains a durable bright ink that is suitable for checks and documents. Yes, the Fisher "100" is outstanding in design, too. Its beauty is unmatched in its price class, and unsurpassed by higher priced pens. See the Fisher "100" now on display.

Standard Procedure for Spaniel Field Trials

1. The purpose of a Spaniel Field Trial is to demonstrate the performance of a perfectly trained Spaniel in the field. The performance of a Spaniel in Field Trials should not differ from that in any ordinary day's shooting, except that in the trials a dog should do his work in a more nearly perfect way.

2. The function of a hunting Spaniel is to walk at heel (or on a leash) until bidden to seek game. When so ordered, he should seek game in a brisk, quiet manner thoroughly quartering the designated cover within gunshot in the line of quest without unnecessarily covering the ground twice. When game is flushed, dogs should drop or "hup" to flush or command and, if game is shot, should retrieve at command only, but not until the Judge has instructed the handler. Dogs should retrieve quickly and briskly when ordered to do so and deliver tenderly to hand. They should then drop or "hup" until given further orders. Spaniels which bark and give tongue while questing are objectionable and should be severely penalized.

3. If a dog, following the line of a bird or rabbit, is getting too far out he should be called off the line and later he should again be cast back on it. A dog which causes his handler and gun to run after him, while line running, is out of control. Handlers may control their dogs by hand, voice, or whistle, but only in the quiet manner that would be used in the field. Any loud shouting or whistling is evidence that the dog is hard to handle, and, in addition, is disturbing to the game.

4. A dog should work to his handler and gun at all times. A dog which marks the fall of a bird, uses the wind, follows a strong runner which has been wounded, and will take direction from his handler is of great value.

5. When the Judge gives a line to a handler and dog to follow, this must be followed and the dog not allowed to interfere with the other contestants running parallel to him.

6. The Judges must judge their dogs for game-finding ability, steadiness, and retrieving. In game finding the dog should cover all his ground on the beat, leaving no game in his territory and showing courage in facing cover. Dogs must drop to wing and shot and obey all commands. When ordered to retrieve they should do this tenderly and with speed. No trials for Spaniels can possibly be run without retrieving, as that is one of the main purposes for which a Spaniel is used.

7. In judging a Spaniel's work Judges should give attention to the following points, taking them as a whole throughout the entire performance, rather than giving too much credit to a flashy bit of work. Control at all times, and under all conditions.

Scenting ability and use of wind.

Manner of covering ground and briskness of questing.

Perseverance, and courage in facing cover.

Steadiness to flush, shot and command.

Aptitude in marking fall of game, and ability to find it.

Ability and willingness to take hand signals.

Promptness and style of retrieve and delivery.

Proof of tender mouth.

Where facilities exist and Water Tests are held in connection with a stake the manner and quality of the performance therein should be given consideration by the Judges in making their awards. Such tests should not exceed in their requirements the conditions met in an ordinary day's rough shoot adjoining water.

Land work is the primary function of a Spaniel, but where a Water Test is given, any dog that does not complete the Water Test shall not be entitled to any award.

8. The Guns should shoot their game in a sportsmanlike manner, as they would in a day's shoot. The proper functioning of the Official Guns is of the utmost importance. The Guns are supposed to represent the handler up to the time the game is shot, although not interfering in any manner with his work or that of the down brace. They are supposed, if possible, unless otherwise directed to kill cleanly and consistently, the

NEW IMPROVED KEN-L-MEAL

*Cuts Feeding Costs
IN HALF!*

- No Other Dog Food Contains Nurgene—Nature's Richest Combination of Vitamins

- Also Enriched with High Protein Meat Meal for complete nourishment and "Sniff Appeal"

Yes, cut feeding costs by using new, improved Ken-L-Meal instead of more expensive types of dog food. This marvelous new meal gives dogs great benefits for health and growth because:

1. It contains Nurgene—nature's richest combination of vitamins. An exclusive ingredient of new, improved Ken-L-Meal.

2. It is also enriched with generous quantities of high protein meat meal for complete nourishment. This meat meal gives it appetizing "sniff appeal".

You benefit, too, by feeding new, improved Ken-L-Meal. So easy to serve—absorbs water *twice as fast* as ordinary meal and obtains a crumbly moist mixture. Costs only a few pennies a day—cuts feeding costs to the bone! Switch to Ken-L-Meal and take advantage of all these benefits!

NEW IMPROVED KEN-L-MEAL

By the Makers of Ken-L-Ration

game flushed by the Spaniels at a point most advantageous to a fair trial of their ability, with due regard to the dogs, handlers, Judges, gallery and other contingencies.

9. Care should be taken not to shot so that the game falls too close to the dog. If this is done it does not afford a chance for the dog to show any good retrieving ability and often results in a bird being destroyed. The Guns should stand perfectly quiet after the shot, for otherwise they may interfere with the dog and handler. When a dog makes a retrieve no other birds or game should be shot unless ordered by the Judge for special reasons. The Gun must also keep himself in the correct position to the handler and others.

10. It has ben repeatedly proven that the most efficient gun and load for this work, in all fairness to the dogs, handlers and those responsible for the trial, is a well-choaked twelve gauge double gun, and a load of not less than three drams of smokeless powder, and one and one-eighth ounces of No. 5 or No. 6 chilled shot.

11. All Field Trial giving clubs should clearly recognize that Open All-Age stakes are of the first importance and that all other stakes are of relatively lesser importance and that an entire day should be reserved for the running of an Open All-Age stake unless there is a very small entry.

he heart of balanced feeding . . .

A food such as Gaines Meal is no mere filler . . . it's a scientifically balanced product designed to provide all food elements essential to a normal dog's well-being . . . plus extra amounts of vitamins and key minerals.

When Gaines is fed as the main part of a dog's diet, you can be certain that the nutritive plusses of Gaines offset any possible deficiencies of foods like meat added as a palate tickler or for special dietary reasons.

So take full advantage of the balance Gaines Meal has been designed to provide . . . take advantage of its economy in terms of nutrition . . . make Gaines the main part of every feeding.
