## RAY CACCHIO

I started working dogs in 1967, got my first ribbon in 1969. A 3rd place in a puppy stake, I was so proud. Went on to win two Open Nationals. I never keep track of my champions. Lefty was my best dog and a very nice dog to be around. He made me look good.

My Grandfather, Herman Mellenthin, won Best in Show with a Cocker two years in a row at Westminster in New York. He also had a duel champion cocker "My Own High Time". I started training with Alex Johnson then Luke Medlin (he had a great way with springers) and finally the great OLD lady Ruth Greening.

I haven't run in trials in ten years, don't worry I still know what I'm doing.

I do training seminars for Orvis, teaching people to train their dogs. A lot harder training people than dogs, but I love it.

Good luck to all and I will give all of you a good look,

Ray Cacchio

## JOHN HALL

I think my start in this sport is much the same as most other Field Trialers. In the fall of 1988, I began training my "hunting dog." After some initial training on my own, I fell into the good fortune of making Dan Langhans acquaintance. As my training proceeded, with his guidance, I was urged to compete in the then unknown to me, Field Trial circuit, and ran my first field trial in the fall of 1990. With a little luck, I received a 4th place in my third trial. With that placement, I was once again urged to compete in the Nationals that took place in Danville, IL. It was a great honor to have run one of the few dogs to finish the National Amateur.

The following year, with 3 more placements under my belt, I flew out to the state of Washington with that great little dog that went by the name of Wild Irish Kelly, and took first place honors in the 1991 National Amateur Field Trial.

A couple of dogs, and several years later, I was proud to once again be in the winners circle at a national event. This time taking 4th place honors in the 2002 National Open in Minnesota. This was accomplished with another fine dog, Gone With the Wind, "Tara".

In between all of this, I've enjoyed the success of additional placements, the camaraderie of gunning in field trials, and the absolute joy of being asked to judge several trials over the years.

It always puts a big smile on my face when I see the drive and enthusiasm that our dogs show in such a diverse range of cover and conditions. There is not an aspect of the sport that I don't thoroughly enjoy.

Another aspect of the game that doesn't get written down in the judges books is the friendships that are made across the country with fellow competitors. I consider it a great honor and pleasure to have been chosen to judge my friends and their wonderful dogs at this years Open National.

Good luck to all competitors and I will see you in the field.

John Hall

## STANDARD PROCEDURE FOR SPANIEL FIELD TRIALS

1. The purpose of a Spaniel Field Trial is to demonstrate the performance of a perfectly trained Spaniel in the field. The performance of a Spaniel in Field Trials should not differ from that in any ordinary day's shooting, except that in the trials a dog should do his work in a more nearly perfect way.
2. The function of a hunting Spaniel is to walk at heel (or on a leash) until bidden to seek game. When so ordered, he should seek game in a brisk, quiet manner thoroughly quartering the designated cover, within gunshot, in the line of quest without unnecessarily covering the ground twice. When game is flushed, dogs should drop or "hup" to flush or command and, if game is shot, should retrieve at command only, but not until the Judge has instructed the handler. Dogs should retrieve quickly and briskly when ordered to do so and deliver tenderly to hand. They should then drop or "hup" until given further orders. Spaniels which bark and give tongue while questing are objectionable and should be severely penalized.
3. If a dog, following the line of a bird, is getting too far out he should be called off the line and later he should again be cast back on it. A dog which causes his handler and gun to run after him, while line running, is out of control. Handlers may control their dogs by hand, voice, or whistle, but only in the quiet manner that would be used in the field. Any loud shouting or whistling is evidence that the dog is hard to handle, and, in addition, is disturbing to the game.
4. A dog should work to his handler and gun at all times. A dog which marks the fall of a bird, uses the wind, follows a strong runner which has been wounded, and will take direction from his handler, is of great value.
5. When the Judge gives a line to a handler and a dog to follow, this must be followed and the dog not allowed to interfere with the other contestants running parallel to him.
6. The Judges must judge their dogs for game-finding ability, steadiness, and retrieving. In game finding the dog should cover all his ground on the beat, leaving no game in his territory and showing courage in facing cover. Dogs must drop to wing and shot and obey all commands. When ordered to retrieve they should do this tenderly and with speed. No trials for Spaniels can possibly be run without retrieving as that is one of the main purposes for which a Spaniel is used.
7. In judging a Spaniel's work Judges should give attention to the following points, taking them as a whole throughout the entire performance, rather than giving too much credit to a flashy bit of work.

Control at all times, and under all conditions.

Scenting ability and use of wind.

Manner of covering ground and briskness of questing.

Perseverance and courage in facing cover.  
Steadiness to flush, shot and command.  
Aptitude in marking fall of game, and ability to find it.  
Ability and willingness to take hand signal.  
Promptness and style of retrieve and delivery.  
Proof of tender mouth.

Where facilities exist and Water Tests are held in connection with a stake, the manner and quality of the performance therein should be given consideration by the Judges in making their awards. Such tests should not exceed in their requirements the conditions met in an ordinary day's rough shoot adjoining water.

Land work is a primary function of a Spaniel, but where a Water Test is given, any dog that does not complete the Water Test shall not be entitled to any award.

8. The guns should shoot their game in a sportsmanlike manner, as they would in a day's shoot. The proper functioning of the Official Guns is of the utmost importance. The Guns are supposed to represent the handler up to the time the game is shot, although not interfering in any manner with his work or that of the down brace. They are supposed, if possible, unless otherwise directed to kill cleanly and consistently, the game flushed by the Spaniels at a point most advantageous to a fair trial of their ability, with due regard to the dogs, handlers, Judges, gallery and other contingencies.

9. Care should be taken not to shoot so that the game falls too close to the dog. If this is done it does not afford a chance for the dog to show any good retrieving ability and often results in a bird being destroyed. The Guns should stand perfectly quiet after the shot, for otherwise they may interfere with the dog and handler. When a dog makes a retrieve no other birds or game should be shot unless ordered by the Judge for special reasons. The Gun must also keep himself in the correct position to the handler and others.

10. It has been repeatedly proven that the most efficient gun and load for this work, in all fairness to the dogs, handlers and those responsible for the trial, is a well-choaked twelve gauge double gun, and a load of not less than three drams of smokeless powder, and one and one-eighth ounces of No.5, No.6, No.7 or No.7-112 shot.

**BLAZE ORANGE IS REQUIRED IN THE FIELD.**

# A SHORT HISTORY OF THIS TRIAL

By C. S. Goodall

The first National Field Trial for English Springer Spaniels was held in mid-December 1947 and was the direct result of several years of concentrated effort by a small group of sportsmen imbued with a desire to further the interest of the breed. Much correspondence now molding in dusty file cabinets provided a factual and, in part, amusing chronology of events leading up to the acceptance of the idea to establish an annual National field trial, for the breed. Many of the objections and dire predictions forecast by those in opposition to the idea seem pointless now when viewed in retrospect. As a means to an end and as an end in itself the National trial has proven to be an overwhelming success and has become a permanent fixture on the agenda of those who follow and love fine sport.

The first National Trial was conducted by a field trial committee acting under authority delegated to the English Springer Spaniel Field Trial Association by The American Kennel Club. The basic procedures were established after long and careful study by a committee consisting of Henry L. Ferguson, Robert C. Bishop, Harry L. Caesar, Charles S. Goodall, Claude Jasper, William R. Kirkland, and the late Dr. Charles G. Sabin. This committee appointed William R. Kirkland and the late Leonard Leader as judges and Charles S. Goodall as Field Trial Chairman. The soundness of the procedures and regulations adopted by the careful action of the National Committee for the conduct of the first trial are attested to by the fact that they remain virtually intact since their adoption in 1947.

The basic and primary function of the National field Trial is to select a National Champion English Springer Spaniel. The many great Springers that have attained to the title in the past provide overwhelming evidence that this objective has been accomplished. One, however, should not lose sight of the importance of several by-products of the event and their wholesome influence on the breed and the sport. The interchange of ideas on all subjects pertaining to fine sporting dogs has enhanced the knowledge of all so engaged, and has contributed to the development of a warm feeling of mutual admiration and respect among sportsmen from all sections of the country.

The rare opportunity for observing the inspired handling of superbly trained spaniels with 500 years of hunting heritage behind them has been invaluable to trainers and breeders interested in improving and perfecting and perfecting training techniques and in producing better Springers. Likewise, the experience of observing the fine sportsmanship exhibited by most owners and contestants in victory and defeat has created a feeling of admiration that has resulted in the growth of the highest sporting standards by the overwhelming majority of those in attendance. It can be said without fear of contradiction that the benefits accruing to the sport have been manifold and that the National serves as an appropriate and grand climax to the autumn field trial and shooting season for all real sportsmen.

As a tribute and mark of distinction to those fine gun dogs which have won or placed in past trials, to their handlers and owners, and to those serious sportsmen who have willingly accepted the responsibility of performing the many thankless tasks so necessary to the success of any organization, the officers and field trial committee are pleased to imprint their names on the following pages.

**Now in Maine, Near Milo!!**

A man and his Springers were walking along a road. The man was enjoying the scenery, when it suddenly occurred to him that he was dead. He remembered dying, and that the dogs had been dead for years. He wondered where the road was leading them. After a while, he was standing before a magnificent gate in an arch that looked like mother of pearl, and the street that led to the gate looked like pure gold. He and the dogs walked toward the gate, and as he got closer, he saw a man at a desk to one side.

When he was close enough, he called out, "Excuse me, where are we?" "This is Heaven, sir," the clerk answered. "Oh! Would you happen to have some water?" the man asked. "Of course, sir. Come right in, and I'll have some ice water brought right up." The clerk gestured, and the gate began to open. "Can my friends come in, too?" the traveler asked, gesturing toward his dogs.

"I'm sorry, sir, but we don't accept pets."

The man thought a moment, furrowed his brow, then turned back toward the road and continued the way he had been going. After another long walk, he came to a dirt road that led through a farm gate. There was no fence. As he approached the gate, he saw a man inside, leaning against a tree and cleaning an American double barrel, probably a Fox or LeFever.

"Excuse me!" he called to the gunner. "Do you have any water?" "Yeah, sure, there's a pump over there. Come on in." "How about my friends here?" the traveler gestured to the dogs. "There should be bowls by the pump."

The traveler extended his hand, smiled a big, broad grin, tipped his hat and went through the gate. Sure enough, there was an old-fashioned hand pump with bowls beside it. The traveler filled the bowls and gave them to the dogs. Then he drank his fill and walked back toward the gunner.

"What do you call this place?" he asked. "This is Heaven," was the answer. "Well, that's confusing," the traveler said. "The man down the road said that was Heaven, too." "Oh, you mean the place with the gold street and pearly gates? Nope. That's Hell." "Hmmm, doesn't it make you mad they use your name like that?"

"No. I can see how you might think so, but we're just happy that they screen out the folks who'll leave their best friends behind."

**G2 Transmitter** The new G2 transmitter is waterproof, made of Lexan® and ergonomically designed. It has an entirely new charging system including a removable battery pack and battery life indicator.

**G2 Receiver** The new G2 receiver is 1/3 smaller and also made of Lexan®. It has the same charging system including a removable battery pack and battery life indicator as in the transmitter. There is an extra loop at the bottom of the receiver to keep the strap snug.

**Lexan®** The new transmitter and receiver are made of Lexan® - the same material used to make bulletproof products.

**Battery Pack** Simply remove the battery pack and replace it with a fully charged one so you'll never have to cut your training day short due to low batteries.

**Charging System** The new cradle charging system is convenient and simple. Fully charge your unit in just two hours. There are no more plugs to lose or replace or holes to get clogged with dirt or debris.

**Grip** The non-slip grip lets you keep a good hold on your transmitter for easier use. The ergonomic shape fits all hands.

**Intensity Dial** The intensity dial has been designed for true one-handed operation.

**Buttons and Toggles** All G2 units have the same great button feel, stimulation, configuration and spacing you've become accustomed to. The tone button has a new location for easy access.

**Antenna** It's 2" shorter, sleeker and even more rugged than it was before.
